

BOSCH

Installation and operating instructions

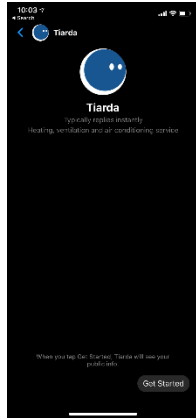

**.tiarda – Facebook Messenger
EasyControl**

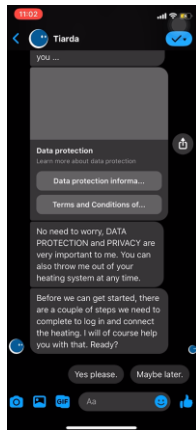

1. Search for “Tiarda” on Facebook messenger then select it.

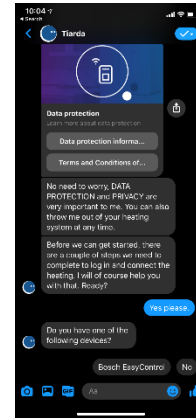

2. Start a conversation by clicking the “Get Started” button.

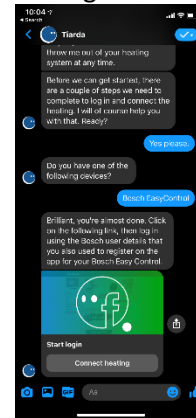

3. .tiarda will ask you whether you are ready to start the log in and heating connection process. Tap on “Yes, please.”

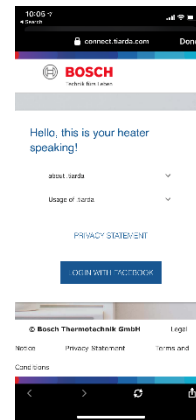

4. Next, you will be asked whether you have the devices displayed at the bottom of the screen. Select your device.

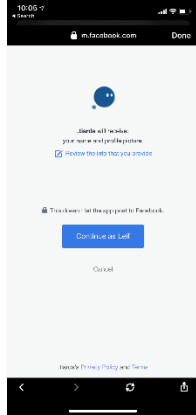

5. Thereafter, click on the “Connect heating” link to log in.

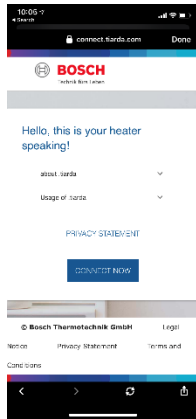

6. Click on “LOG IN WITH FACEBOOK” and sign into your Facebook account.

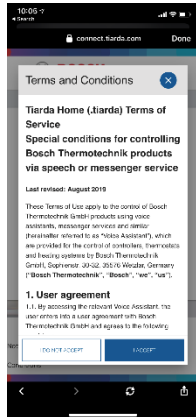

7. Grant .tiarda access to your name and profile photo on Facebook.

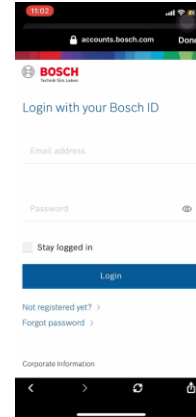

8. Click on "CONNECT NOW".

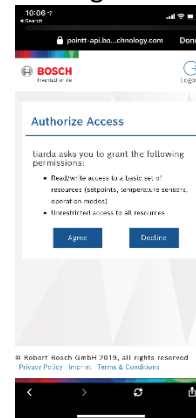

9. Accept the Terms and Conditions.

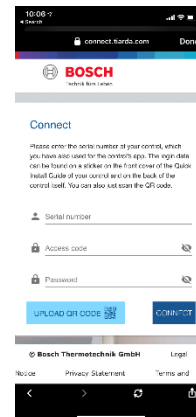

10. Login with your Bosch ID (that you created during the installation process of the EasyControl)

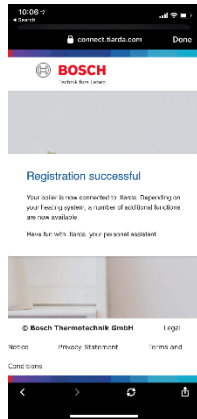

11. You will be requested to authorize access. Click on "Agree".

12. Enter your controller data and your personal password that you use with the app.

13. Registration successful!

14. You can now start writing with .tiarda. An overview of all functions can be found [here](#). You can also simply use the menu in the Messenger, which will guide you through the most important functions.

Have fun with .tiarda, your personal assistant! 😊
